

Mill E-Z™ Flo-Back

Bio-Ball Plug

SPECIFICATIONS

- **Appearance:**
Spherical, Opaque
- **Compositions:**
PEO, PPO, PLA
- **Specific Gravity:**
1.18
- **Mechanical Integrity:**
Up to 5000 psi at 230°F after 1 hour of exposure at temperature
- **Applications Range:**
250°F to 350°F
- **Compatible Fluids:**
Polar Solvents: e.g. Water, brine, short chain alcohols
- **Incompatible Fluids:**
Non-Polar Solvents: e.g. Diesel, Benzene, Xylene, kerosene, Toluene
- **Technical Considerations:**
Wet the Bio-Balls in Mineral oil prior to placement in the ball injector to avoid clumping. Do not expose to heat – temperatures greater than 180°F. Avoid contact with water or other polar solvents during storage.
